

Corporation Name	Justification for why the corporation anticipates exceeding the 1% cap on participation in the Alternate Assessment for the 2022-23 school year. (Select one)	Please provide further explanation below regarding justifications.
New Castle Community School Corp	Other: Corporation to provide brief justification of variables not covered in the previous options	New Castle is the LEA for our 5 district cooperative. Surrounding New Castle is very very rural. Some families with children who have significant disabilities choose to live in town - closer to services, supports, and closer to school. The district works hard to restrict IAM participation only to students who meet requirements AND require the IAM assessment (rather than ILEARN).
M S D Pike Township	Other: Corporation to provide brief justification of variables not covered in the previous options	Based on current enrollment at this time, the number of students that meet the criteria for the alternate assessment, IAM, and receive an alternate curriculum based on their educational needs exceeds 1% in the grades tested. Upon review of the data, Pike estimates that approximately 1.4% of the tested population will participate in the IAM assessment for the 2022-23 school year.
Dynamic Minds Academy	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Dynamic Minds Academy is a public charter school that was designed to support students with autism spectrum disorder. All students who attend are identified as having a disability which leads to a higher percentage of students participating in the alternate assessment due to their significant disability.
West Central School Corp	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Our small student population (645 students) contributes to the increased participation in excess of the 1% cap in addition to drawing a large number of families with significant cognitive disabilities.
Western School Corp	Corporation has a small overall student population (provide overall population below)	The corporation has a small population of students who are 3-8 taking state assessments. Of the students taking state assessments, the corporation has 16 students who are eligible for the IAM.
Pike County School Corp	Corporation has a small overall student population (provide overall population below)	Student enrollment for the 2022-2023 year is 1500 (K-12). The district has lost a significant number of students to homeschool, charter school, and family relocation.
Greencastle Community School Corp	Corporation has a small overall student population (provide overall population below)	Last year we did go over by .6%. We at GCSC, make these difficult decisions at case conferences with all important stakeholders including parents. If a child is not being successful in the general education environment with any and all accommodations, then we as a team determine that they would be more successful in a self contained classroom working on life skills and working at their level which is always not at grade level. If the student is not accessing the general education curriculum, it would be a disservice to them to ask them to take a test assessing such curriculum. Students are individuals and we must meet their needs even if it surpasses the 1% set by the Federal/State government. In 2022-23- we have estimated that 780 students will take Ilearn in grades 3-8 and 150-200 kids to take the SAT and two students taking IAM. We again will be over the 1% by .14% estimated. Again these decisions are not made lightly and we put the students' needs over the 1% rule.

Corporation Name	Justification for why the corporation anticipates exceeding the 1% cap on participation in the Alternate Assessment for the 2022-23 school year. (Select one)	Please provide further explanation below regarding justifications.
Steel City Academy	Corporation has a small overall student population (provide overall population below)	Steel City Academy has a student population of 323 students in grades K-12.
Cannelton City Schools	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	We will only have one students taking the alternate assessment this school year.
Indiana School for the Blind	Corporation has a small overall student population (provide overall population below)	We currently serve and educate 125 students on campus. 100% of those students have an IEP. Approximately 72% of those students have an additional disability. Based on case conference committee decisions, more than 1% of ISBVI students participate in the IAM assessment. It is determined, by the case conference committee that other assessments are inappropriate for these students.
Andrew J Brown Academy	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	NA
Vincennes Community School Corp	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Vincennes hosts most of the drug treatment programs across the 4 county areas. We are seeing an increase of Autism as well as children exposed to drugs in utero.
Madison-Grant United School Corp	Corporation has a small overall student population (provide overall population below)	We have a population of 1071
Vigo County School Corp	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	We are a high poverty community and the biggest community in the vicinity for surrounding counties. Most resources needed for this population of student is provided in Vigo County.
Griffith Public Schools	Corporation has a small overall student population (provide overall population below)	The total student population at Griffith Public Schools for the 2020-2021 school year was 2,017 students.
Salem Community Schools	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	Current IAM tester count is at 15 students which is below our 1% of 17.

Corporation Name	Justification for why the corporation anticipates exceeding the 1% cap on participation in the Alternate Assessment for the 2022-23 school year. (Select one)	Please provide further explanation below regarding justifications.
Damar Charter Academy	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Damar Charter Academy (DCA) is designed for children with special learning needs including ASD and other intellectual and developmental challenges that have struggled to be successful at a traditional public school.
Seymour Community Schools	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Our School district attracts a large population of students needing special programs.
Wabash City Schools	Corporation has a small overall student population (provide overall population below)	WCS has a total enrollment of 1529 K-12 students (Fall Count). One student could move WCS above or below the 1% cap.
Options Charter Schools	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Options has two ABA schools for students with ASD. We also have a much smaller enrollment compared to other schools.
Community Schools Of Frankfort	Corporation has a small overall student population (provide overall population below)	Current enrollment is 2,994, with a special education population around 497. We were approximately 1 or 2 students over the 1% threshold this past year.
Shoals Community School Corp	Corporation has a small overall student population (provide overall population below)	Student population is 674.
Manchester Community Schools	Corporation has a small overall student population (provide overall population below)	MCS is a small corporation, serving 1376 K-12 students (Fall count). One student could move MCS above or below the 1% cap.
Mitchell Community Schools	Corporation has a small overall student population (provide overall population below)	Student population is 1499.
Northeast School Corp	Other: Corporation to provide brief justification of variables not covered in the previous options	Corporation does have a large number of students with significant needs that are placed in functional classrooms.

Corporation Name	Justification for why the corporation anticipates exceeding the 1% cap on participation in the Alternate Assessment for the 2022-23 school year. (Select one)	Please provide further explanation below regarding justifications.
Bloomfield School District	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	This school corporation houses our functional Life Skills classrooms for junior high and high school. Three school corporations are within this classroom.
Southwest School Corp	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	This school corporations houses three of our functional Life Skills classrooms from two districts.
Linton-Stockton School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	We recently moved two students from IAM to ILEARN. We feel they will be able to complete the ILEARN or at least attempt it.
Mill Creek Community School Corp	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Our corporation huses our own Life Skills program for all levels(K-5, 6-8, & 9-12), although we participate in the ONT Co-op, we have enough students of our own to serve in lieu of transporting elsewhere.
Anderson Community School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	A new rubric has been created and provided to special education teachers to help the case conference committee determine if a student is eligible to participate in the alternate assessment.
Tippecanoe Valley School Corp	Corporation has a small overall student population (provide overall population below)	Tippecanoe Valley School Corporation is a small rural school with just around 1,900 students. We typically do go over the 1% cap due to our small population. Each year our participation cap fluctuates based on how many 10th graders that we have participating in the Alternate Assessment. If we have a large 10th grade class then our percentage is greater. Each student's decision to participate in the Alternate Assessment is made at a case conference and included the entire case conference committee.
Michigan City Area Schools	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	A few years ago, we opened two more elementary classrooms for students with significant disabilities who moved into our district. These students moved into our district within a year and a half. In addition, we have a very high number of families (77%) in poverty for the size of our district and many of those families have children with significant needs.
Porter Township School Corp	Corporation has a small overall student population (provide overall population below)	1628

Corporation Name	Justification for why the corporation anticipates exceeding the 1% cap on participation in the Alternate Assessment for the 2022-23 school year. (Select one)	Please provide further explanation below regarding justifications.
Garrett-Keyser-Butler Com	Corporation has a small overall student population (provide overall population below)	Enrollment 1709
Union School Corporation	Corporation has a small overall student population (provide overall population below)	1401
Knox Community School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	Knox Community School Corporation is at 1.6%. Our goal is to not exceed this next year, however, the individual students come first. Of the 11 students on the Alternate Assessment, 7 were severely Autistic, 2 are Multiple and 2 are cognitively delayed. It is our belief that the case conference committee has made the correct decision for the individual students however, will continue to monitor and review the documents.
Argos Community Schools	Corporation has a small overall student population (provide overall population below)	Argos Community School Corporation is at 3.9%. Our goal is to not exceed this next year, however, the individual students come first and we have a small corporation. In addition, the community attracts students from the Amish faith. Of the 15 students on Alternate Assessment, 8 are severely Autistic, 2 are Multiple and 5 are cognitively delayed. It is our belief that the case conference committee has made the correct decision for the individual students however, we will continue to monitor the 4 students who are mild cognitive impaired.
Union-North United School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	Union North Community School Corporation is at 1.1%. Our goal is to not exceed this next year, however, the individual students come first. Of the 7 students on Alternate Assessment, 2 are severely Autistic, 2 are Multiple and 3 are cognitively delayed. It is our belief that the case conference committee has made the correct decision for the individual students.
Rural Community Schools Inc	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	We currently do not have any students with significant cognitive disabilities. We anticipate all of our students in grades 3-8 taking the iLearn Assessment for the 2022-2023 school year.

Corporation Name	Justification for why the corporation anticipates exceeding the 1% cap on participation in the Alternate Assessment for the 2022-23 school year. (Select one)	Please provide further explanation below regarding justifications.
Muncie Community Schools	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Muncie Community Schools serves a high number of students who have moderate and severe cognitive disabilities, in addition to Autism (many with significant language impairments or non-verbal). In reviewing our disaggregated data, we provide services for a large number students in grades 3-8 & 10 who have significant disabilities or Autism. Our 1% cap is at 26 students, which we exceeded by 19 students (this is down 14 students from 2020-2021). Although we do not look at the area of eligibility as criteria for the alternative assessment, the reality of the significant cognitive issues these students present does inform our decisions. Secondly, we have a very active parent group for Autism, and our community offers a summer camp for students with Autism
Mt Vernon Community School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	We have reviewed students who are currently recommended to be assessed via the Alternate Assessment.
Paramount Englewood	Corporation has a small overall student population (provide overall population below)	The total school population (5-8) has a total enrollment of 202 students.
M S D Boone Township	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	District 2022 RDA data indicates 0% participation and 2023 results will be similar.
East Porter County School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	RDA data from 2022 indicates 0% participation in IAM testing and 2023 is anticipated as having similar numbers.
Frankton-Lapel Community Schools	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	Less than 1% of the student population meet the criteria for participation in the alternate assessment.
Elwood Community School Corp	Corporation has a small overall student population (provide overall population below)	1,614 total student enrollment.
North Vermillion Community School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	Corporation also has a small overall student population with a total enrollment of 673.

Corporation Name	Justification for why the corporation anticipates exceeding the 1% cap on participation in the Alternate Assessment for the 2022-23 school year. (Select one)	Please provide further explanation below regarding justifications.
Covington Community School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	Corporation also has a small overall student population of 888 total enrolled students.
Attica Consolidated School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	Corporation also has a small overall student population of 542 total students.
Eastbrook Community School Corp	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Eastbrook School Corporation has a student population of 1,636. Approximately 25 students will take part in the Alternate Assessment. Eastbrook School Corporation is proud to have a Life Skills program that services students from grades K-12. Most of the students in the Life Skills program will take the Alternate Assessment.
Indianapolis Public Schools	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	IPS offers a robust continuum of services and special programming that draws the attention of a large number of families. We are one of the only districts that offer a program (REACH) for students significantly impacted by their Autism in need of 1:1 support from an RBT. Many parents choose this as it provides an educational focus with intentional ABA strategies. We offer specialized programming throughout the district for students with Autism that do not need the support of REACH but do need a more intensive approach. This program is sought after by many families outside our boundary lines. Finally, our ARCHES program for students on COC is desired by many and directly feeds into our SITE and SEARCH programs.
Laporte Community School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	As part of a Special Education cooperative, we believe that students being serviced in LaPorte are part of our Results for our IAM assessment when they should be reported back to the Corporation of Legal Settlement. This has been remedied through our Skyward Data Manager, our District Testing Coordinator and the Assistant Superintendent of Special Education.
Merrillville Community School	Other: Corporation to provide brief justification of variables not covered in the previous options	MCSC houses 2 cluster site programs in which some of the student participants end up on the alternate assessment. These programs service 8 local school districts.
Western Wayne Schools	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	Western Wayne Schools will ensure our 1% cap is met through oversight from our Special Education Department, Testing Coordinator, and Superintendent.

Corporation Name	Justification for why the corporation anticipates exceeding the 1% cap on participation in the Alternate Assessment for the 2022-23 school year. (Select one)	Please provide further explanation below regarding justifications.
Edinburgh Community School Corp	Corporation has a small overall student population (provide overall population below)	We are a district of 806 students. We keep the number as low as possible, but we have a small student enrollment with a high number of special education students.
Clark-Pleasant Community School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	As a district, we monitor Alternate Assessment participants, revisit these conversations and decisions annually during case conferences, and remind stakeholders of the alternate assessment criteria. District-wide, we have received a number of students who access our intensive resource rooms who moved-in with alternate assessment prescribed in their IEP, as a result, our participation rate increased. We do not anticipate exceeding the 1% cap next year.
Warrick County School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	Corporation is currently reviewing all students assigned to the Alternate Assessment to ensure appropriate criteria and IDOE guidance have been met for our students. We were just over the 1% cap and are thoroughly reviewing all participants to ensure validity of participants. Additionally, our Special Education Coordinators are meeting with our building teams to review the guidelines as well.
Alexandria Community School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	Corporation works in conjunction with teachers and the community to ensure students are taking the most accurate assessment to reflect their learning needs.
M S D Wayne Township	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	We will review our data and provide training to our staff to improve our decision-making with the Alternate Assessment.
M S D Mount Vernon	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	Recent RDA results indicate the MSD Mount Vernon district is at .5%, therefore; we don't anticipate exceeding the 1% cap on participation.
M S D Bluffton-Harrison	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	Anticipated IAM percentage for SY 2022 should be around 0.7% as we expect to test 7 students on IAM out of a total of 1012 current students in 3-8 and grade 11. Note that we have a centralized program for significant disabilities, and that last year of our 10 students who tested IAM, only 3 students were BHMSD students.
Westview School Corporation	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Students from Lakeland School Corporation and Prairie Heights School Corporation attend our schools because we house the Applied Skills program for LaGrange county. In addition, we have a large Amish population with various genetic disorders.

Corporation Name	Justification for why the corporation anticipates exceeding the 1% cap on participation in the Alternate Assessment for the 2022-23 school year. (Select one)	Please provide further explanation below regarding justifications.
Fort Wayne Community Schools	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	We live in a large urban area with many health care providers: IU Health' Parkview Health; Lutheran Health and Dupont Health Services
Mississinewa Community School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	We only had 1.1% participate in the IAM assessment and we were only over the 1% cap by .1%. After looking at our numbers, we had accepted some out of district students who take the IAM assessment . Those students took us over out 1%.
Jay School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	School corporation has worked hard to ensure we do not exceed the 1% cap and all employees are aware to work with students and curriculum to make sure they are ready for all state assessments.
Tipton Community School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	During the 2021-22 school year there were no students who participated in the IAM. We do not have any students who enrolled this year that will be taking the IAM or have taken it in the past.
Lake Central School Corp	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Parents move to our district from IL and surrounding districts due to our programming within our applied skills program. Additionally, we serve students at Campagna Academy, which operates a residential program for students with ID who participate in the alternate assessment.
Crown Point Community School Corp	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Crown Point is located within 40 minutes of three hospitals. We are also an hour south of Chicago which has four major children's hospitals.
South Madison Com Sch Corp	Other: Corporation to provide brief justification of variables not covered in the previous options	South Madison Community School Corporation has a relatively small population. For the 2021-2022 school year, we exceeded the cap with 1.03% participation in the Alternate Assessment. At this time, we have had five additional students move into our district with IAM testing designation. Currently we have four non-resident students that participate in alternate testing. SMSCSC utilizes the participation criteria during the meetings to ensure appropriate students are participating in the Alternate Assessment.
North Gibson School Corp	Other: Corporation to provide brief justification of variables not covered in the previous options	For Students who are taking the alternate assessment, a case conference committee decided and agreed the students need a life skills curriculum, and meet the criteria and are on a non-diploma track.

Corporation Name	Justification for why the corporation anticipates exceeding the 1% cap on participation in the Alternate Assessment for the 2022-23 school year. (Select one)	Please provide further explanation below regarding justifications.
Mill Creek Community School Corp	Corporation has a small overall student population (provide overall population below)	Due to the small student population total for Mill Creek Schools, it is difficult to meet the 1% cap. Furthermore, this metric is a Case Conference Committee decision, and we will honor those decisions.
Cloverdale Community Schools	Corporation has a small overall student population (provide overall population below)	Due to the small student population total for Cloverdale Schools, it is difficult to meet the 1% cap. Furthermore, this metric is a Case Conference Committee decision, and we will honor those decisions.
Lake Ridge Schools	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	During the 2021-2022 school year, Lake Ridge Schools shared an Intense Interventions program with the School Town of Highland. It appears that Highland students attending programming in Lake Ridge were counted as Lake Ridge students, which impacted the count and percentage of students taking Alternative Assessment for Lake Ridge. Lake Ridge does not share the program with Highland anymore, so we do not anticipate a high percentage moving forward.
Spencer-Owen Community Schools	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	Currently numbers indicate we will not exceed the 1%
Crawford County Community School Corp	Corporation has a small overall student population (provide overall population below)	1298
Randolph Southern School Corp	Corporation has a small overall student population (provide overall population below)	472 total population high incidence rate
M S D Decatur Township	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	As a district, we have been working diligently to reduce the number of students on the alternate assessment by working with staff to understand who is and who is not eligible to take the alternate assessment and by reviewing those currently taking the alternate assessment to ensure it is appropriate.
East Noble School Corp	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	East Noble School Corporation has an open enrollment policy for all students. In addition, we have separate programming which allows students to have access to a variety of programs, not offered elsewhere. This draws out-of-district families to our district. We have made gains to address our special education numbers, and continue to make progress in this area.

Corporation Name	Justification for why the corporation anticipates exceeding the 1% cap on participation in the Alternate Assessment for the 2022-23 school year. (Select one)	Please provide further explanation below regarding justifications.
Valparaiso Community Schools	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Valparaiso is a catchment area which will not change. This district serves 2 corporations.
Tri-Creek School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	Tri-Creek School Corporation uses appropriate evaluation methods for students and follows the state criteria when considering a student for the alternative assessment. There are some areas in the community that house families of low socioeconomic status. It is possible that there is a greater number of students in these residential areas who meet the alternative assessment criteria. Research shows that those who reside in lower socio-economic areas tend to have lower IQs.
Southwestern Consolidated School Shelby County	Corporation has a small overall student population (provide overall population below)	The Southwestern Consolidated school district currently has a total of 587 enrolled in grades K-12.
Greenwood Community School Corp	Corporation has a small overall student population (provide overall population below)	We have a foster family that adopts/fosters students with severe cognitive disabilities in Greenwood. She currently has 16 students living in her home. We have had 12 move in students with severe cognitive disabilities that have moved into our district this year that take the IAM assessment. We have a large number of out of district transfer students who have severe cognitive disabilities that transfer into our district.
Lafayette School Corporation	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	We do not expect to exceed the 1% participation cap this school year. We did not exceed it last year. On our RDA dashboard, we were at .9%. We have seen an increase of students with IEPs move-in this year so we are hopeful we will remain under 1%.
Gary Community School Corp	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	GCSC is located in an urban area that draws a large number of students with significant disabilities. The other schools located in the surrounding area within the district are not able to support the needs of those students with significant disabilities.
South Harrison Community Schools	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	South Harrison Community Schools are part of the Harrison County Exceptional Learners Cooperative. As part of the cooperative, South Harrison houses programs for students with significant cognitive disabilities that students from other schools within the cooperative attend. Therefore, South Harrison Schools educates other students with significant cognitive disabilities from other districts. This increases the number of students who qualify to take the alternative assessment.

Corporation Name	Justification for why the corporation anticipates exceeding the 1% cap on participation in the Alternate Assessment for the 2022-23 school year. (Select one)	Please provide further explanation below regarding justifications.
Richland-Bean Blossom Community School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	Our students are placed in their LRE with all necessary support and services to maximize their time in the general education setting. We have a low number of students who meet the criteria for Alternate Assessment. Barring any move-in students with the Alternate Assessment in their IEP, we anticipate our numbers remaining below 1%.
Argos Community Schools	Corporation has a small overall student population (provide overall population below)	Argos has a very small enrollment and our special population educational opportunities are noted by parents. They enroll in Argos Schools.
M S D Washington Township	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	Our school district has not exceeded 1% for several years and we anticipate similar trend for the current school year.
Bremen Public Schools	Corporation has a small overall student population (provide overall population below)	The student count at Bremen Public Schools is 1,456.
South Bend Community School Corp	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Multiple ABA Centers, Hannah and Friends, and the Logan Center. Additionally, programming at local universities (Notre Dame, IUSB) attracts families of students with multiple disabilities.
M S D Warren Township	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	MSD Warren was only over by one student. With our focus on inclusion, we anticipate to be below this for next year.
Jennings County Schools	Other: Corporation to provide brief justification of variables not covered in the previous options	Our population of students with significant intellectual disabilities exceeds 1% of our total population.
Adams Central Community Schools	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Our school system services an Amish populations that has children with multiple disabilities.
Washington Community Schools	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Washington Community School Corporation is a large school with a large population of students who qualify for the life skills program under moderate and severe intellectual disabilities. Students participate in this program from other corporations within the Coop.

Corporation Name	Justification for why the corporation anticipates exceeding the 1% cap on participation in the Alternate Assessment for the 2022-23 school year. (Select one)	Please provide further explanation below regarding justifications.
North Daviess Community Schools	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	North Daviess along with the Daviess-Martin Special Education Cooperative housed a life skills program for grades K-6 who have students who are eligible for special education services under moderate and severe intellectual disabilities. Students from within the Coop, ;but attend other corporations attend and participate in this program.
Barr-Reeve Community Schools Inc	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	NA
Loogootee Community School Corp	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Loogootee Community School Corporation houses a Life Skills program with the Daviess-Martin Special Education Cooperative where multiple corporations send the students with moderate to severe disabilities.
Eastern Howard School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	The school district is in a cooperative and after some investigation, two other districts were included in on our count and not directed back to the legal settlement schools. We are working on fixing that clerical error in our system so we will not have other students out of district in our life skills program counted against us as the serving school district.
Mooresville Consolidated School Corp	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Mooresville Consolidated School Corporation accepts out-of-districts enrollments. Therefore, we have a large number of students attend from other districts. We also offer a wide continuum of services and programming. Our overall numbers are up too. Our December 1 count is up 47 students from the 2021 count.
Monroe Central School Corp	Corporation has a small overall student population (provide overall population below)	Our % was 1.1% for the 2021-2022 school year; we have the around the same enrollment for the 2022-2023 school year.
Southwest Dubois County School Corp	Corporation has a small overall student population (provide overall population below)	In grades 3-8, enrollment is between 162 to 128 per grade.
Tell City-Troy Twp School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	We currently show only seven students on that track, so we do not plan to exceed the cap. We do have a significantly higher special needs population as compared to neighboring schools.

Corporation Name	Justification for why the corporation anticipates exceeding the 1% cap on participation in the Alternate Assessment for the 2022-23 school year. (Select one)	Please provide further explanation below regarding justifications.
Fort Wayne Community Schools	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Parkview Health Systems Dupont Health Services Lutheran Health Systems
Crawfordsville Community Schools	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Crawfordsville provides the Life Skills program for the county. North Montgomery Schools and South Montgomery (Southmont) send their students with significant disabilities to attend the Life Skills program in Crawfordsville. Most of the students in that program take the alternate assessment. It appears on the RDA data that the students whose home district is North or South all show up in Crawfordsville data, which is why we are currently at 1.6.
Liberty-Perry Community School Corp	Corporation has a small overall student population (provide overall population below)	1157 651 students in tested grades 3-8, 10 36% of students tested on IAM are out of district students
South Adams Schools	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	South Adams Schools has a large Amish community located within our attendance borders. Within the community there is a unique genetic disease that is noted within the medical community. Many of those school age students are sent by their parents to our Intense Intervention program at South Adams.
South Spencer County School Corp	Corporation has a small overall student population (provide overall population below)	South Spencer County September ADM for the 2022-2023 school year was 1,046.
Plymouth Community School Corp	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	It is the school's goal to be below 1% in following years.
South Adams Schools	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	South Adams Schools has a large Amish community located within our attendance borders. Within the community there is a unique genetic disease that is noted within the medical community. Many of those school age students are sent by their parents to our Intense Intervention program at South Adams.

Corporation Name	Justification for why the corporation anticipates exceeding the 1% cap on participation in the Alternate Assessment for the 2022-23 school year. (Select one)	Please provide further explanation below regarding justifications.
River Forest Community School Corp	Other: Corporation to provide brief justification of variables not covered in the previous options	<p>The students in River Forest Community School Corporation that take IAM, the alternative assessment, meet the designated criteria. It is believed that River Forest Community School Corporation exceeds the 1% because of the high level of poverty in our community. Research shows that there is a direct correlation between poverty and cognitive functioning. Nutrition, brain stimulation and emotional support impact brain development. When children are raised in a poverty ridden environment their cognitive development is likely to be lessened. Parenting skills are often limited and the home is typically stress ridden. Research indicates that cortisol, a hormone in the body, is more prevalent when stress is imposed. Students of poverty have ongoing stress on them. Higher cortisol levels have lower cognitive levels according to the Society for Research in Child Development. <del>Because of the low socio-economic level of our community our students are at a</del></p>
South Gibson School Corp	Other: Corporation to provide brief justification of variables not covered in the previous options	<p>We continue to only test those who qualify for the Alternative Assessment under the chart provided by the DOE. We have a slight increase in the number of students who have increased due to moving in, sharing of students with a different corporation who don't house their Life Skills students, students returning from home school after staying away from the public setting due to health concerns over Covid.</p>
School City Of East Chicago	Other: Corporation to provide brief justification of variables not covered in the previous options	<p>1. School City of East Chicago has a large foster care residential facility located in our district. (Carmelite Home for Children.) Many of the students placed in this facility are from various parts of Indiana. Students placed at the Carmelite Home for Children, have many diverse challenges, including special education and mental health needs. Many of these children are students with the most significant cognitive disabilities. At any given time, there are over 20 plus students placed in this residential facility. 2. Our district has a high mobility rate. This school year alone, we had a large number of students with significant disabilities move into our district. This year we have 80 students in our Life Skills Program, as compared to 64 students from last school year. This is a large increase of students with cognitive disabilities that moved into our district at the start of the 2022-2023 school year. Our students move in and out of our district throughout the school year. 3. The School City of East Chicago is an open district. This means we allow students from neighboring school systems to attend our schools and avail themselves of our services, especially those that pertain to Special Education and disabilities. We have a number of students that attend our school and are placed in our Applied Skills Program due to their prior school's eligibility determination.</p>

Greensburg Community Schools	Corporation has a small overall student population (provide overall population below)	Greensburg Community School Corporation has a total population of 2051 students. Of those, 1077 are in grade levels assessed by ILearn (3rd - 8th; 10th). Of the 1077 students being tested this school year, there are 12 students with a significant cognitive delay, who qualify to take the Alternative Assessment. Of those 12 students, one moved in this school year. Another student is homebound with significant health problems and a severe/profound cognitive impairment. As it stands with the 12 students taking the Alternative Assessment, our percentage is just over the 1% limit at 1.114206%. Our count would have to be 10 in order to be under the 1% (.928505). I do not foresee that as being possible until the five fourth-grade students that we have in this group are in ninth grade.
M S D Steuben County	Corporation has a small overall student population (provide overall population below)	During 2021-22, just 14 (numerator) students participated in alternate assessment. Given our district count was 1308 (denominator), that put us at 1.07% - just over the cap. It would be anticipated that a similar number of students will participate in the alternate assessment during 2022-23.
Kokomo-Center Twp Consolidated School Corp	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	We support 5 ABA centers in our district as well as a a robust essential skills program that parents opt in to. Many of the students parents work in the city and chose to transition them from ABA to our autism program/classrooms within our district.
Oak Hill United School Corp	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Oak Hill United School Corporation is a small school in Grant County. Oak Hill has a large population of students that transfer from Marion, which is an area with a high poverty rate.
Perry Central Community Schools Corp	Corporation has a small overall student population (provide overall population below)	We currently have 1,212 students in K-12.
Monroe County Community School Corp	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Our community has a large number of ABA clinics and other programs for individuals with disabilities throughout the life span provided by the university. This coupled with our corporation's current working relationship with area service providers, and strong instructional programs for students with significant disabilities brings families to the area specifically for our school programs.
Yorktown Community Schools	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	We do not anticipate exceeding the 1% participation cap for the 2022-23 SY. From calculations at the present time, we are under 1% based on the number of students on alternate testing and the total testing populations in grades 3-8 and 10.
Zionsville Community Schools	Corporation does not anticipate exceeding the 1% participation cap for the 2022-23 school year (explain reasoning below)	Our corporation does not anticipate exceeding the 1% participation cap for the 22-23 school year. We currently are under this cap for student identified to take the alternate assessment.

Corporation Name	Justification for why the corporation anticipates exceeding the 1% cap on participation in the Alternate Assessment for the 2022-23 school year. (Select one)	Please provide further explanation below regarding justifications.
Noblesville Schools	Other: Corporation to provide brief justification of variables not covered in the previous options	Noblesville Schools is located at the heart of Hamilton County which draws many families and programs to the area. As a result many families move into our district from other districts looking for other opportunities for the child with disabilities. As a result, we serve a larger population of students with disabilities with varying needs.
Marion Community Schools	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	Each decision regarding testing is made carefully and thoughtfully in terms of requirements and student ability. The decision is made with all stakeholders and discussed at a case conference with all options weighed and considered. Our community has a great number of supports for families Pre-K- Adult and that attracts them to our area.
Borden-Henryville School Corporation	Corporation has a small overall student population (provide overall population below)	Our total enrollment is 1,665. Our corporation has a Title 1 school in addition to an established strong moderate/severe program that includes 7 out of district transfer students.
New Albany-Floyd County Consolidated Schools	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	New Albany Floyd County School Corporation receives a lot of transfer requests for students with significant disabilities due to the fact that small neighboring districts cannot provide the continuum of services that we are able to provide. Additionally, we border Louisville, KY and have had a significant influx of families moving to New Albany for safe, affordable housing. Many of the students moving into the District for Louisville qualify for special education services. We have seen a marked increase in both students with cognitive disabilities and those with emotional disabilities.
Evansville-Vanderburgh School Corp	Corporation has a school, community, or health program that draws a large number of families of students with significant cognitive disabilities to area (describe or name below)	The EVSC is one of the largest in our area to offer the necessary special education services. We receive additional students from outside of our corporation attendance area for these services.
